

CerarMist™

SURFACE GUARD

CerarMist Surface Guard is a multi-surface protectant that is a radically different, non-chemical approach to safeguarding against infectious microbes.

CerarMist Surface Guard, while completely undetectable and harmless to humans, modifies and bonds with surfaces in a way that makes microbe adhesion and colonization impossible. Under extreme magnification, treated surfaces can be seen to be transformed and extremely deadly to a wide variety of dangerous pathogenic micro-organisms.

CerarMist Surface Guard is a mechanical defensive product that provides a physical safeguard on most surfaces against external threats of contamination, offering ongoing protection long after application.

Designed for cleaning, disinfecting and protecting surfaces in public spaces, hospitals, schools, hotels, restaurants, athletic facilities, daycare centers, animal kennels and more.

Invisible Non-Toxic Odorless Nanoscopic

Here's the Facts:

- Proven effective against over 140 types of bacteria, viruses, fungi and algae.
- Depending upon application method, CerarMist Surface Guard stays bonded with the surface for hours, weeks or even months.
- Rated EPA Toxicity Category IV, the lowest achievable.
- Formulation is water-based, alcohol-free and eco-responsible

Directions for Use: For best results, surfaces must be clean and free of dirt and debris prior to application. If mold is visible or suspected, sanitize surfaces with an approved disinfectant and must be DRY before applying CerarMist Surface Guard. To form an adequate protective coating, surfaces must be thoroughly covered using a spray applicator. For best adhesion, electrostatic application is strongly recommended. **Allow to air dry.**

Coverage: 1-gallon coats up to 2000 sf. of non-porous surface area. Actual coverage may vary based on surface porosity. Follow all local rules and regulations for Personal Protection Equipment. **Storage:** Store out of direct sunlight. Do not allow product to freeze. Once opened, product can be stored for up to 12-months. Store out of reach of children and pets. **USE ONLY AS DIRECTED.** May cause slight eye irritation. Do not ingest. **First Aid:** Avoid contact with eyes. If eye irritation occurs, rinse for several minutes or until discomfort subsides.

- ✓ Safe for Indoor and Outdoor Use
- ✓ Hard Surfaces, Fabric & Textiles
- ✓ NON-Toxic, Safe for Humans, Plants and Animals
- ✓ NO Surface Degradation
- ✓ NO Fumes or Artificial Fragrances
- ✓ NO Chemicals
- ✓ Easy Spray, Wipe, Foam and Electrostatic Application
- ✓ Certified Antimicrobial under EN 1276 2009
